SUMMARY

Software and Integrations Engineer with 1+ years of enterprise experience at First Advantage building scalable full-stack web applications and robust integration solutions. Proficient in Java (8/11/17), Angular, RESTful API architecture, and relational as well as NoSQL databases (Oracle SQL, PostgreSQL, MongoDB). Hands-on expertise in automated CI/CD pipelines via GitHub Actions, Rancher container orchestration, and Azure Cloud deployment.

WORK EXPERIENCE

First Advantage

Associate Integrations Engineer

Associate Software Engineer

Bangalore, India

May 2026 – Present

July 2025 – May 2026

Project: Profile Advantage

- Designed, developed, and maintained core enterprise modules and user interfaces using **Angular** and modern **Java (8/11/17)**.
- Engineered and integrated performant **RESTful APIs**, enabling seamless, low-latency data exchange across distributed client platforms and internal services.
- Handled complex data operations, schema management, and query tuning across **Oracle SQL**, **PostgreSQL**, and **MongoDB**.
- Integrated **Azure Cloud** infrastructure with GitHub Actions CI/CD pipelines to automate container builds, environment configuration, and service rollouts.
- Collaborated across Agile sprints, conducting code reviews, resolving critical production issues, and ensuring compliance with enterprise security and quality standards.

TECHNICAL SKILLS

Languages: Java (Core Java, Java 8/11/17), SQL, TypeScript, JavaScript

Frontend Development: Angular, HTML5, CSS3, Responsive Web Design

Backend & Frameworks: REST API Development, JEE, Spring Boot, Hibernate, JDBC

Databases: Oracle SQL, PostgreSQL, MongoDB, MySQL

Cloud & DevOps: Azure Cloud, Rancher, GitHub Actions, Git, GitHub, Maven

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Design Patterns, Agile/Scrum

PROJECTS

Aahar – Food Delivery Web Application

[🌐 Code Repository](#)

- Developed a full-stack food delivery application using **Java**, **Servlets**, **JSP**, and **MySQL** following the MVC architecture.
- Implemented secure session-based user authentication, role-based access for customers and restaurant managers, and dynamic cart management.
- Designed relational database schemas with optimized SQL queries to handle real-time order placement and live order status tracking.
- Built responsive web pages using **HTML5**, **CSS3**, and **JavaScript** to ensure smooth cross-browser navigation.

EDUCATION

B.Tech in Computer Science and Engineering

Annamacharya Institute of Technology and Sciences

2020 – 2024

GPA: 7.34/10.0

Intermediate (Class 12th)

Sri Chaitanya Junior College

2018 – 2020

GPA: 7.90/10.0

Secondary School (Class 10th)

Sri Ravindra High School

2017 – 2018

GPA: 8.50/10.0

CERTIFICATION

Full Stack Web Development – Tap Academy

[Credential](#)

Completed intensive training covering Java, Spring Boot, React.js, SQL, REST APIs, and responsive UI design.
